eight foreign policy experts analyze the expanding role of the united states government in pro insurgency counter insurgency and anti terrorist programs around the world

confronting insurgent violence in iraq and afghanistan the u s military has recognized the need to re learn counterinsurgency but how has the department of defense with its mixed efforts responded to this new strategic environment has it learned anything from past failures in the new counterinsurgency era david ucko examines dod s institutional obstacles and initially slow response to a changing strategic reality ucko also suggests how the military can better prepare for

the unique challenges of modern warfare where it is charged with everything from providing security to supporting reconstruction to establishing basic governance all while stabilizing conquered territory and engaging with local populations after briefly surveying the history of american counterinsurgency operations ucko focuses on measures the military has taken since 2001 to relearn old lessons about counterinsurgency to improve its ability to conduct stability operations to change the institutional bias against counterinsurgency and to account for successes gained from the learning process given the effectiveness of insurgent tactics the frequency of operations aimed at building local capacity and the danger of ungoverned spaces acting as havens for hostile groups the military must acquire new skills to confront irregular threats in future wars ucko clearly shows that the opportunity to come to grips with counterinsurgency is matched in magnitude only by the cost of failing to do so

from the carolina swamp fox to the afghan mujahideen this book analyzes 40 guerrilla struggles across five continents profiles important figures and gives extensive bibliographical information with an emphasis on causes and effects part i surveys and analyzes all major guerrilla struggles and many less well known wars from the american revolution to 20th century post colonial conflicts drawing a distinction between guerrilla warfare and terrorism the author focuses on guerrilla activity he seeks to answer such questions as the genesis and context of an insurgency its resemblance to other guerrilla conflicts what factors contributed to victory or defeat which factors are unique to a conflict and what factors are common to many conflicts part ii profiles individuals who are important to the subject including guerrilla chieftains military commanders government officials party leaders theorists and instructors who exerted notable influence part iii surveys the major english language literature on guerrilla warfare providing a wide ranging representative and intensive collection of works

this book explains why the united states local allies are often as much of an obstacle to success in counterinsurgency as the insurgents themselves

small wars is unique in its complexity and breadth this book would be of great interest to both military and diplomatic historians and those that teach recent america nancy gentile ford author of issues of war and peace today conventional fighting waged by massed industrial armies is nearly extinct as a viable means of warfare replaced by a broad and diverse array of conflicts that consume the modern american military fought in sprawling urban areas of the underdeveloped world or in desolate border regions where ethnicity and tradition reign these small wars involve a vast and intricate network of operations dedicated to attacking the cultural political financial and military layers that surround america s new enemies in this intriguing study michael gambone explores america s approach to small wars since vietnam providing a fascinating analysis of the basic goals missions conduct and consequences of modern american conflict going beyond a simple comparison of vietnam to the current wars in afghanistan and iraq gambone thoroughly tracks the continuous evolution of u s intervention between these events revealing a dramatic shift in the role of the american military to covert operations that require fluidity creativity and ingenuity he examines in detail the many different forms of military intervention that america has taken in the last forty years including actions in central america in the 1980s the first gulf war airstrikes in kosovo in the 1990s and the war on terror as well as the iran contra affair the drug war in columbia and the role of private military contractors such as blackwater after the cold war gambone shows american military missions served a wide variety of tasks peacekeeping humanitarian assistance

counterterrorism that significantly departed from conventional missions a trend that continued and expanded after 9 11 by exploring the history and assessing the effectiveness of the small wars fought since vietnam gambone reveals the importance of these smaller actions in modern military planning and operations and clearly traces the development of american warfare from the massive military machine of world war ii into a complex hybrid of traditional and innovative techniques michael gambone a professor of history at kutztown university in pennsylvania is the author of the greatest generation comes home the veteran in american society and editor of documents of american diplomacy from the american revolution to the present

this new work features the fresh thinking of thirty one leading authors from a variety of military and national security disciplines the anthology is part of a larger rethinking the principles of war project sponsored by the office of force transformation and the u s navy to reexamine traditional and unorthodox approaches to the future of warfare jacket

for almost a half century the cold war its presumed origins and its anticipated consequences blinded most scholars to the global problems underlying the conflict with the sudden demise of the cold war it is clear that new thinking about conflict in world politics is essential assembling research from a variety of disciplines and cultural perspectives behavior culture and conflict in world politics indicates that conflict between states is not substantially different from conflict within families or societies based on this fundamental assertion the contributors take the first steps toward articulating a general theory of conflict

maryknoll priest roy bourgeois has achieved national attention for leading the campaign to close the u s army school of the americas this is the inspiring journey of a prophetic priest in his campaign for peace and justice

in the name of protection and national security we witness the development of both a transnational field of professionals of politics and of professionals of security police intelligence military this development might provide a feeling of safety but it also induces illiberal practices that lead to resistance from judges human rights groups and part of the public drawing on research from several european countries this volume brings together essays on the way counterterrorism is embedded into the very logic of the fields of politics and of security both in their internal and international dimension

entering the warzone is the first book to deal with the oka crisis from a mohawk viewpoint goodleaf was directly involved in the standoff between the mohawks and the canadian army in the summer of 1990 she provides firsthand insight into the experience and an in depth look at mohawk sovereignty
